MOATAZ ASHRAF AWAD

FRONT-END DEVELOPER | Alexandria, Egypt | 01227946282 | moatazalhappony@gmail.com

PROFESSIONAL SUMMARY

Entry-level Front-End Developer and self-directed programmer currently strengthening practical skills through EraSoft's Front-End Development course. Builds responsive web interfaces with HTML, CSS, JavaScript, and React, and has foundational experience working with APIs. Focused on clear layouts, maintainable components, and accessible user experiences. Seeking a junior front-end or internship opportunity.

TECHNICAL SKILLS

HTML5 | CSS3 | JavaScript (ES6+) | React | Responsive Web Design | REST API Fundamentals | Git and GitHub | UI Implementation | Component-Based Development

SELECTED PROJECT

Clinova Medical Clinic Landing Page

Independent front-end practice project | Live demo: https://docweb-xi.vercel.app/

Built a responsive clinic landing page with service sections, patient review cards, FAQ content, and appointment calls to action. Implemented the interface with React and CSS. This is a demonstration project; clinic details and testimonials are sample content.

PROFESSIONAL TRAINING

Front-End Development Course | EraSoft

In progress. Practical training in HTML, CSS, JavaScript, React, and working with APIs.
